

Dear Lynda

A couple of months ago I was lucky enough to win a subscription to NZ Gardener through the wonderful *GrownUps* website (if any of your readers haven't visited yet I would urge them to, it is a terrific resource for the over-50's.)

I have now received two issues, and I want to say how much I am loving every aspect of your magazine. I have been an avid gardener for 30 years, and regularly bought the NZG for the best part of a decade. When circumstances forced a trimming of my expenses in the 90's, I most regretfully said 'goodbye' to the NZG.

Since then of course you have made many changes to the magazine, and I am simply delighted to have been given the opportunity to rediscover it, and to find it so crammed full of interesting and informative articles. It makes me realise just how much I have been missing.

My grateful thanks to the NZG team and to Alice Worsley at *GrownUps*, who thought that this photo of my coastal native garden was a winner. I couldn't have hoped for a better prize.
